STUDENT'S FEEDBACK ON ACADEMIC CURRICULUM
ACADEMIC YEAR...4 (2010-2014)

This form is used to collect feedbacks from students on the expected learning outcomes and academic curriculum of their studying program. The information of the expected learning outcomes and curriculum are presented in SB Student's Handbook and on the program's website. Your valuable feedback will be used for the annual improvement of the academic curriculum of your program.

Name of program: Advanced Aquaculture, Year of studying : 2010-2014

PART 1: EXPECTED LEARNING OUTCOMES

Expected learning outcomes (ELO) are what students could achieve when they finish their studying of the program.

- 1) Do the ELO of your program satisfy your expectation?
 a) Agree
 b) Disagree
- 2) Do the ELO of your program satisfy the need of labour market?
 c) Agree
 d) Disagree

3) Do you have any suggestions for the ELO of your program?
No

4) Which criteria or something in a criterion in the ELO of your program should be deleted? Why?
I think some subjects in general knowledge should be deleted, because some information in those subjects are repeated from high school to university

PART 2: CURRICULUM STRUCTURE

- 5) The curriculum of the program includes 4 blocks of knowledge. They are: General knowledge (18 credits), Core knowledge (72-81 credits), Specialization knowledge (21-30 credits) and Practical knowledge (15 credits). In your opinion, is it balanced?
 a) Agree
 b) Disagree. Why?

I think the core and practical knowledge should increase in the number of credits to have a good preparation for students in the future jobs.

6) Do you think that all the courses in the curriculum of your program can contribute to your achievement of the ELO?

- a) Agree
- b) Disagree. Why?

I disagree because some general courses didn't relate to the major that I study.

7) In order to promote your achievement of the ELO, what content/ course need to be added in the curriculum?

I think we should practice more

8) In order to help you adapt to the labour market, what content/ course need to be added in the curriculum?

No idea

Other comments or/ and recommendation:

Thank you very much.
